Dear Collaborators

I'm grateful to you all for the positive feedback especially after two terms. I would be happy to keep serving the Collaboration in continuity with the past and in close contact with the new spokespersons. Lukas and I had the chance to cooperate as a team, carrying out ordinary work and facing also special circumstances. It was a unique chance for personal growth and a direct way to a deep knowledge of the Collaboration. I will exploit the gained experience for addressing the challenges and opportunities ahead of us.

Kind Regards,
Lorenzo
