Collaboration Board  
Pierre Auger Collaboration

Dear Colleagues,

I would like to thank everybody for the trust they expressed accepting me as a candidate to chair the Collaboration Board for another period. Both the collaboration and the Observatory are going through changes. We have recently elected new spokespersons for the collaboration, and we working on the upgrade of our Observatory. I believe that it will help with the transition to have continuity in some of the executive positions to help preserving knowledge and past experience. You all know my way of chairing the CB, always trying to balance having a discussion and moving forward, aiming at finding a productive compromise between the two. I am therefore ready to continue serving the collaboration as chair of the CB.

With best regards,

Dr. Lukas Nellen
